

## Technical Specification

- Lifting capacity - 5 ton.
- Minimum pressure required - 100 psi.
- Lifting time - 5 second.
- Minimum height-6 inch, Maximum height-10 inch
- Length of product - 52 Inch
- Weight-25 kg.

## Speciality of Product

- Operates on Pneumatic technology.
- Does not use piston or motors , so its zero maintenance.
- cut resistance air balloons.
- Works of single button operation.
- Heavy metal base plate and handle for durable long life.
- two times more vehicle service due to high speed of ground operation.
